

Metropolitan City of Turin

Sustainable Logistics Plan

**Unità di Progetto Politiche di Trasporto e
Mobilità Sostenibile**

Metropolitan City of Turin:

- 312 Municipalities;**
- 2.205.104 Inhabitants**
- 6 827 km² Area**

**D. MIN. INFRASTRUTTURE E TRASP.
04/08/2017, N. 397 determine:
*“the metropolitan cities are the
entities in charge to
implementation the SUMPS”***

PUMS

Piano Urbano della Mobilità Sostenibile
CITTÀ METROPOLITANA DI TORINO

**Metropolitan Council City of
Turin approved the SUMP in
20th July 2022:**

The Metropolitan SUMP provides for the definition of 3 sector plans:

- the logistics plan**
- the accessibility plan**
- the metropolitan biciplan**

What is a SMLP?

Metropolitan Plan for Sustainable Logistics is an integral part of the SUMP. It is a sector-specific plan for the management of logistics processes and for the design of solutions within a medium-term time horizon, as well as a tool aimed at providing:

- A Vision of the system and common objectives of the territory***
- Tailor-made solutions and services for operators***
- Reduction of environmental and energy impacts***
- Roadmap for institutional adoption***

The guidelines:

-The guidelines from UE and Transport Ministry;

-The Metropolitan City of Turin SUMP;

-The Piedmont Region Logistic plan;

-The Piedmont Region Air Quality Plan;

-The Eltis guideline;

The Implementation phase

- ***analysis of the regulatory framework***
- ***analysis of the planning framework***
- ***mobility offer analysis***
- ***socio-economic data analysis***
- ***analysis of the demand for mobility***
- ***dialogue with stakeholders***
- ***definition of critical issues and impacts***
- ***definition of KPIs***
- ***strategies and measures***
- ***definition of the monitoring system***

The main focus

Listening to the needs of supply chain

SETTORE	MISSIONE	VEICOLO
